

# OPTINEO CANTILEVER LEG

## OPTINEO

**Optineo** is the solution proposed by Buronomic to optimise office layout and create a pleasant and functional working environment: compact dimensions, numerous top shapes, extensions etc., all available in five finishes: cherry, maple, beech, light grey and light oak.

**Optineo** is also an exclusive design with matching legs, cable ports, extensions and space dividers. Available in 3 colours ( pink, blue and white ), the dividers can be fitted with a memo kit, providing a highly practical and original touch.

**Optineo**, equipped with its cantilever leg, combines simplicity and contemporary lines.

## MODESTY PANELS

The straight, structural modesty panels are made from 16mm thick melamine panels with thin edging.

## PEDESTALS

The structures and fronts of Optineo pedestals are made from 16mm thick melamine panels with thin edging. The bases are equipped with metal inserts to accommodate casters for the mobile pedestals or screw jacks for the desk height pedestals. The tops for the mobile pedestals are 16mm thick.

The rectangular extensions used as tops for the desk height pedestals are 25mm thick and protected by 2mm thick shock-proof ABS edging. The drawers have metal sides, with a 3.5mm fibreboard back, are mounted on metal runners with rollers, load capacity 20kg. The centralised locking consists of an interchangeable cylinder with two keys, one of which folds away.

The drawer for lateral filing is fitted with a 5th anti-tilt caster. 2 lateral filing options: A4 and foolscap.

The plastic casters have a metal shaft. They are fastened to the structure by clamping on a metal insert. Drawer handles are made from metal in an aluminium finish.

## EXTENSIONS

The tops of the extensions are protected by 2mm thick shock-proof ABS edging matching the available finishes. They are secured by metal plates or brackets screwed to the desk.

The rounded extension consists of a top supported by a tubular leg of diameter 50mm, allowing an adjustment of up to 10mm. The rectangular extensions are available with the desk height extensions and can also be equipped with tubular legs.
