

ASTRAL EURO WORKSTATIONS

The practicality of Astral Euro is ever more apparent when configuring workstations, complimented by our extensive range of storage solutions.

We are so confident that our products are designed and manufactured to the highest standards that every item we produce is guaranteed for a period of 6 years.

Outstanding quality control BS EN ISO 9001:2000 ensures that everything we manufacture is always present and correct, that it goes together easily and most importantly stays together. Every product we manufacture goes through rigorous quality control checks throughout the production process.

Practical Curves

Astral Euro provides not only furniture that will last but furniture with substance and flowing curves. The shapes are designed to add practicality and working space whilst increasing aesthetic value.

The right environment for team working is important; the sense of belonging is increased by creating pleasing work areas that help make people feel comfortable.
