

EXHIBITION & DISPLAY SOLUTIONS

With an aluminium frame for elegance, strength and protection, DAS displays are permanently hinged so that they remain as a single unit when folded down and are extremely quick to erect and dismantle. All panel sets are supplied in a tough carry bag. Three panel sets have a display area on each side of 2m² and weigh 7.5kg. Four panel sets have a display area on each side of 2.6m² and weigh 10kg. Six panel sets have a display area on each side of 4m² and weigh just 16kg. Eight panel sets have a display area on each side of 5.2m² and weigh just 20kg.

DAS Display Systems are available in 3, 4, 6 or 8 aluminium panel set's, with each panel permanently fixed to it's neighbour by special hinging allows it to be folded down to size of a single panel for transportation and unfolded to full size in seconds.

FABRIC

Due to the limitations of the printing process, these colours are for guidance only.

STRUCTURE X®

The multipurpose tables consist of 25mm thick STRUCTURE X® panels rounded at the corners and protected by 2mm thick, shock-proof edging. STRUCTURE X® panels are manufactured on a fully automated production line. They are PEFC labelled counter-balanced melamine panels with anti-reflection treatment, density 680kg/m³ (±5%), complying with the requirements of the Centre Technique Du Bois Et De L'Ambeullement (CTBA).
