

NOBO T-CARD SYSTEM

A simple, yet effective planning system comprising T-card panels of varying widths and depths which can be combined using link bars.

- Panels are available in different lengths and widths
- All panel sizes correspond to T-card sizes for ordering
- Use plastic panels with tracking to remove the complete system to work on

PLASTIC STORAGE

- New heavy duty range
- All sizes fit louvre panels

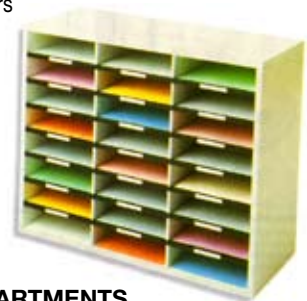

NOBO LINK BARS

- T-card panels can be connected at top and bottom with a pair of link bars which are supplied with title strips and clear plastic shields
- To determine which link bar you require for your system simply add up the last digits of the reference numbers of the panels you intend using, e.g. three 3504 panels (ie 3x4) = value of 12, you therefore need an LB12 link bar.
