

PRE-INKED STAMPS

The ultimate pre-linked stamp. The micro porous material contains sufficient ink to give thousands of impressions. Simply remove the protective cover and the stamp is ready to print. When the impression eventually fades, it can be refreshed with re-inking fluid. We recommend that all Perma stamps are filled up periodically and avoid drying and contraction.

NATURAL RUBBER STAMPS

This is bright and modern in appearance and of a robust construction. The stamp is indexed: you can see the impression you will make through the clear plastic cover on the upper surface of the mount. The die is manufactured via computer aided design and advanced technology. It's composition is of natural rubber giving the best possible ink transfer.

Advanced technology in production has enabled us to develop a simplified price structure. The price is now based purely on size - decide the stamp (width x depth) and refer to the pricing chart to obtain an instant price.

No additional charges are made for borders.
